

Dr Sol Pedre

**General Manager, CAREM Project, National Atomic Energy Commission,
Bariloche, Argentina**

Sol Pedre has worked in the National Atomic Energy Commission of Argentina since 2013. She is currently the General Manager of the CAREM Project, a project focusing on the Argentinian SMR now under construction in a neighboring site to Argentina's Atucha I and Atucha II NPPs.

Sol is also Vice President of the board of CONUAR (Combustibles Nucleares Argentinos), the company in charge of manufacturing the fuel for all Argentina's NPPs. She has over 20 years of university teaching experience, most recently as a Professor at the Balseiro Institute in Bariloche, Argentina.

Sol is a member of the Standing Advisory Group on Nuclear Energy (SAGNE) at IAEA and of the Committee for Technical and Economic Studies on Nuclear Energy Development at NEA.
